ENGAGE. RETAIN. INSPIRE.

SageVIEW Inspire is unique in the many layers of benefits it offers to your Internal Communications strategy:

- **Message Retention** - Repeated immersions of memorable digital content create deeper connections. Content focused on your Core Business Objectives, Best Practices, and Risk Mitigation campaigns helps shape corporate culture and employee behavior.
- **Message Reinforcement** - By aligning your content with messaging delivered by your Store Managers, and other communication channels, you improve the impact of your message across all channels.
- **Reaching Non-Digital Employees** - Often in retail and logistics locations, you find larger groups of non-digital employees. SageVIEW Inspire allows you to effectively reach this segment of your workforce.
- **Alternative Channel for HR Messaging** - HR managers often complain nobody is reading their emails or posts. In these cases, signage helps improve the likelihood that important messaging is reaching your audience.
- **Supplementing Manager Communications** - Your managers wear many hats. SageVIEW Inspire helps ensure your messaging reaches all employees effectively and consistently.
- **Immediacy** - In critical moments, digital signage offers immediacy for rapidly communicating a message across your organization. This helps remove ambiguity, providing accurate information when it is needed most.
