

SAGENET RETAIL-READY

Integrated Store Solutions

For today's retail chains, gigabit speed bandwidth is only the beginning. To achieve truly frictionless retail across the enterprise, siloed systems with different vendors need to be replaced with one provider offering integrated solutions to create the seamless in-store experience shoppers expect.

SageNet's Retail-Ready integrated solution provides retailers with an intelligent, scalable approach to retail connectivity across hundreds or even thousands of locations.

By integrating vital in-store services, SageNet's Retail-Ready platform helps eliminate the headaches associated with opening locations, launching next-gen stores and introducing new retail applications and services. The Retail-Ready suite of services includes:

- Managed firewalls
- SIEM and SOC services
- Guest Wi-Fi
- Digital signage
- Data analytics

THE UNIQUE NEEDS OF THE BRICK-N-MORTAR STORE IN THE DIGITAL AGE

SageNet has more than 30 years of experience supporting some of the nation's leading retailers. (The company's largest retail customer has more than 15,000 locations.) SageNet's Retail-Ready methodology offers retailers a PCI compliant, comprehensive managed services approach that includes:

- 24x7 network and security operations and support
- PCI Compliance scanning and support
- Retail-focused subject matter experts (SMEs)
- Dedicated program managers
- Consolidated billing
- Secure management portal
- National Logistics Center
- Nationwide field service organization

SAGENET MANAGED NETWORKS, MANAGED SECURITY AND ANALYTICS

SageNet's Retail-Ready platform delivers rapidly deployable, effective and affordable connectivity, security and compliance solutions engineered for the multisite retailer, backed by a team of certified and experienced network engineers and cybersecurity experts.

SageNet analytics can help retailers identify high-value customers through their network usage patterns and manage network traffic to optimize the user experience. Network and location analytics can also provide retailers valuable insight into demographics and behavior that helps retailers fully optimize the in-store experience.

*sage*CONNECT.™ *sage*SECURE.™ *sage*Wi-Fi.™ *sage*VIEW.™ *sage*IoT.™

- **SageCONNECT™:** From managed firewall services to primary broadband to guest-Wi-Fi to cellular or satellite back-up, the industry's leading retailers count on SageCONNECT for reliable, secure and affordable connectivity.
- **SageSECURE™:** Whether outsourcing or co-sourcing security operations, SageNet's security team helps some of the nation's largest retail chains achieve PCI compliance, protect critical data and respond 24x7 when the bad guys try to attack.
- **SageWi-Fi™:** Improve the quality and reliability of Internet access while also elevating the guest experience with unique branding and mobile integration. Increase brand loyalty and encourage customer engagement with free or paid wireless service. Use network analytics to explore network health and usage, and establish IT standards to monitor and predict issues.

- **SageVIEW™:** Our Digital Signage solutions offer simplicity and security to meet the needs of Marketing and IT to create the ultimate in-store digital experience. We bring you the systems integration expertise, highly qualified technical resources, and depth of experience in Managed Network Services to design, install, and monitor a multi-site digital signage solution.
- **SageIoT™:** SageNet's IoT Visibility platform detects enterprise-wide problems and provides network solutions through IoT data collection and analytics. The platform also gathers data from multiple sources to provide network standards and predictive analytics, improving the overall network and end-user experience.
